Get social

Arrange to meet up with friends and family. Allow time for your children to connect and interact together. Play games, draw and create, build with lego. Invite friends over for play dates, meet up for a picnic or lunch. It is so important for our students to build connections, develop relationship skills and confidence in engaging socially. Taking turns, sharing, co operating, resolving conflicts and problem solving. Make the most of the holidays to get a chance to do this.
